PART B - OTHER INFORMATION

1. Listing and Admission to Trading – De-listing

Application has been made to list and to admit the Securities to trading on Euronext Access Paris.

The de-listing of the Securities on the exchange specified above shall occur at the opening time on the fifth Exchange Business Day preceding the Expiration Date (excluded), subject to any change to such date by the exchange or any competent authorities, for which the Issuer and Guarantor shall under no circumstances be liable. The last day on which quotations will be available is the sixth Exchange Business Day preceding the Expiration Date.

2. Ratings

The Securities to be issued have not been rated.

3. Performance of Underlying/Formula/Other Variable, Explanation of Effect on Value of Investment and Associated Risks and Other Information concerning the Underlying

The Securities are **American Style Call Warrants linked to ETI Shares of the BNP PARIBAS EASY EURO STOXX 50 UCITS ETF Capitalizing Share** denominated in EUR with a maturity of 10 years.

Upon due exercise of the Call Warrants, the Holder shall be entitled to receive on the Settlement Date from the Issuer the Entitlement subject to payment of the Exercise Price. The Entitlement shall be equal to a fixed number of ETI Shares per Call Warrant as determined pursuant to the provisions of §14 in Part A.

The value of the ETIs delivered will depend on the performance of the ETIs and therefore Holders will need to consider carefully whether such value will equal the sum of the price initially paid for the Warrant, the Exercise Price and the Exercise Fee (and any Securities Expenses) before exercising any Warrants.

The Call Warrants will be settled by way of physical delivery of the Entitlement.

Automatic Exercise does not apply. Consequently if the Holder fails to exercise the Securities during the Exercise Period, the Securities will expire worthless.

Therefore, an investment in the Securities is highly speculative, involving significant risk (including the total loss of the purchase price of the Securities) and should only be considered by persons who can afford a loss of their entire investment.

In respect of secondary market transactions, the price of the Securities will depend on market conditions and may be subject to significant fluctuations.
